

ARTIFICIAL HEDGE TILES INSTALLATION INSTRUCTIONS

HARDWARE SUPPLIED

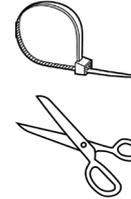

TOOLS REQUIRED

For drywall, concrete or a fence:

For wire or mesh:

STEP 1

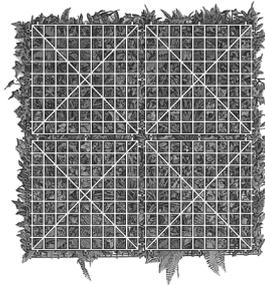

Before you buy your Unreal Hedging product, measure your space to calculate how many tiles are required.

Artificial Hedge Tiles come in the below sizes.

50 x 50cm Artificial Hedge Tiles

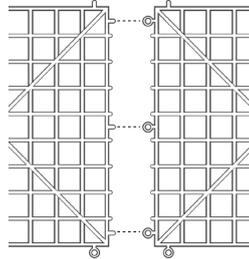

100 x 50cm Artificial Hedge Tiles

100 x 100cm Luxury Artificial Hedge Tiles

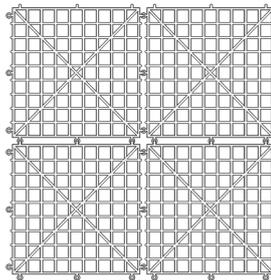

STEP 2

Once you have your Artificial Hedge Tiles, align your hedge tiles next to each other. Clip them together using the loops and clips on each edge of the tiles. These loops can be found at the back of each tile and can clip together.

STEP 3

Now its time to gather your tools to install the Hedge tiles to your intended wall. For Drywall, concrete or a fence you will require nails, a hammer and/ or a screwdriver. For wire or mesh surface, you will require cable ties and scissors.

STEP 4

Nail, staple, tie or hang your hedge tile to the wall, fence or other surface, making sure it is firmly secured. Once the tiles are firmly secure, you have completed your Unreal Artificial Hedge Tiles display . Please share your inspiring Unreal Hedge images through our @unrealhedgeandplants instagram page.
