

4000 Litre Slimline Water Tank

Shown in
Clay Brown

10 YEAR
WARRANTY

Built to the highest of Australian standards, this slimline water tank has been designed to be durable, in order to withstand the harsh Australian weather.

The largest from our slimline water tank range, this unit will collect a huge 4000 litres of rain water, but the slimline design gives the option of being positioned in a discreet space.

- The slimmest 3000 litre water tank available in Australia.
- Built to last, using UV stabilised food grade polyethylene. BPA free.
- One-piece cylindrical construction that ensures 'hoop' strength and stability.
- Complies with AS/NZS 4766 standard for above ground tanks.
