Residual Heat lights

Benefits

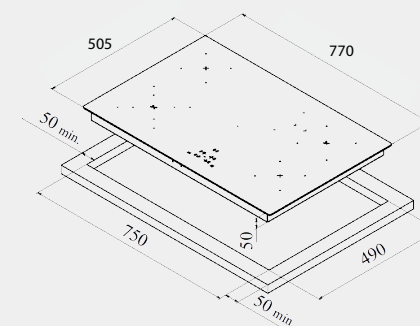

Faster heat times (compared to radiant elements), with a uniform heat distribution. 2 double cooking zones.

With 9 different settings, you can select the ideal cooking temperature for all types of foods to provide the perfect cooking results.

Its resistance to extreme temperatures makes it an ideal cooking surface. With zero thermal expansion, this glass will neither expand nor contract with heat.

Allows you to see that the surface of the cooktop is still hot, preventing accidents.
