

BLANCO

**Instruction Manual for
Ceramic Cooktop**

BCC64K

Dear Customer,

Thank you for buying a BLANCO cooktop.

Before we continue telling you about this cooktop, we cordially invite you to become part of the Blanco family by subscribing online. Please visit our website where you can easily register for product/cooking demonstrations, and request Blanco's gourmet recipes. Go to www.blanco-australia.com and fill in the subscription details in the contact us/showrooms section.

You will find that the clean lines and modern look of your Blanco cooktop blends in perfectly with your kitchen décor. It is easy to use and performs to a high standard.

Blanco also makes a range of products that will enhance your kitchen such as ovens, rangehoods, dishwashers, microwaves, sinks and taps. There are models to complement your new Blanco cooktop.

Of course, we make every effort to ensure that our products meet all your requirements, and our Customer Relations department is at your disposal, to answer all your questions and to listen to all your suggestions.

Please complete the warranty card and keep your receipt as proof of purchase. Retain all documents relating to the purchase of this product.

Blanco is committed to providing increasingly efficient products that are easy to use.

1-) DESCRIPTION OF THE APPLIANCE

It is important that you should read this manual for best performance and to extend the life of your appliance. We recommend you to keep this manual for future reference.

Your new cooktop is guaranteed and will give lasting service. This guarantee is only applicable if the appliance has been installed and operated in accordance with the operating and installation instructions detailed in this manual.

Note: Appearance of your cooktop maybe different than the model shown above due to its configuration.

2-) SAFETY INSTRUCTIONS

READ THESE INSTRUCTIONS CAREFULLY AND COMPLETELY BEFORE USING YOUR APPLIANCE, AND KEEP IT IN A CONVENIENT PLACE FOR REFERENCE WHEN NECESSARY.

General Safety Warnings

- The appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervised or instruction concerning use of the appliance by a responsible person for their safety.
- Young children should be supervised to ensure that they do not play with the appliance.
- **WARNING:** Unattended cooking on a cooktop with fat or oil can be dangerous and may result in fire. **NEVER** try to extinguish a fire with water, but switch off the appliance and then cover flame e.g. with a fire blanket.
- **WARNING:** Danger of fire: do not store items on the cooking surfaces.

Do not place heavy objects in or on these appliances, use for storage or as a cutting surface as sharp edges can damage the surface. This appliance is designed for cooking food only. Use flat based, stable, inductive cooking rated cooking vessels only.

- **WARNING:** If the surface is cracked, switch off the appliance to avoid the possibility of electric shock.

- The appliance is not intended to be operated by means of an external timer or separate remote-control system.

- Do not use harsh abrasive cleaners or sharp metal scrapers to clean the oven door glass and other surface since they can scratch the surface, which may result in shattering of the glass or damage to the surface.

- Do not use steam cleaners for cleaning the appliance.

- The temperature of the bottom surface of the cooktop might rise during the operation. Therefore, a board must be installed underneath the product.

- Your appliance is produced in accordance with all applicable local and international standards and regulations.

- Maintenance and repair work must be made only by authorized service technicians. Installation and repair work that is carried out by unauthorized technicians may endanger you. It is dangerous to alter or modify the specifications of the appliance in any way.

- Prior to installation, ensure that the local distribution conditions (electricity voltage and frequency) and the requirements of the appliance are compatible. The requirements for this appliance are stated on the label.

- **CAUTION:** This appliance is designed only for cooking food and is intended for indoor domestic household use only and should not be used for any other purpose or in any other application, such as for non-domestic use or in a commercial environment or room heating.

- All possible security measures have been taken to ensure your safety. Since the glass may break, you should be careful while cleaning to avoid scratching. Avoid hitting or knocking on the glass with accessories.

- Ensure that the supply cord is not wedged during the installation. If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to prevent a hazard.

Installation Warnings

- Do not operate the appliance before it is fully installed.

- The appliance must be installed by an authorized technician and put into use. The producer is not responsible for any damage that might be caused by defective placement and installation by unauthorized people.

- When you unpack the appliance, make sure that it is not damaged during transportation. In case of any defect; do not use the appliance and contact a qualified service agent immediately. As the materials used for packaging (nylon, staplers, styrofoam...etc) may cause harmful effects to children, they should be collected and removed immediately.

- Protect your appliance against atmospheric effects. Do not expose it to effects such as sun, rain, snow etc.

- The surrounding materials of the appliance (cabinet) must be able to withstand a temperature of min 100°C.

During usage

- Do not put flammable or combustible materials, in or near the appliance when it is operating.
- Do not leave the cooktop while cooking with solid or liquid oils. They may catch fire on condition of extreme heating. Never pour water on to flames that are caused by oil. Cover the saucepan or frypan with its cover in order to choke the flame that has occurred in this case and turn the cooker off.
- Always position pans over the centre of the cooking zone, and turn the handles to a safe position so they cannot be knocked or grabbed.
- If you will not use the appliance for a long time, unplug it. Keep the main control switch off. Also when you do not use the appliance.
- Make sure the appliance control knobs are always in the "0" (stop) position when it is not used.

During cleaning and maintenance

- Always turn the appliance off before operations such as cleaning or maintenance. You can do it after plugging the appliance off or turning the main switches off.
- Do not remove the control knobs to clean the control panel.

TO MAINTAIN THE EFFICIENCY AND SAFETY OF YOUR APPLIANCE, WE RECOMMEND YOU ALWAYS USE ORIGINAL SPARE PARTS AND TO CALL ONLY OUR AUTHORIZED SERVICE AGENTS IN CASE OF NEED.

3-) INSTALLATION

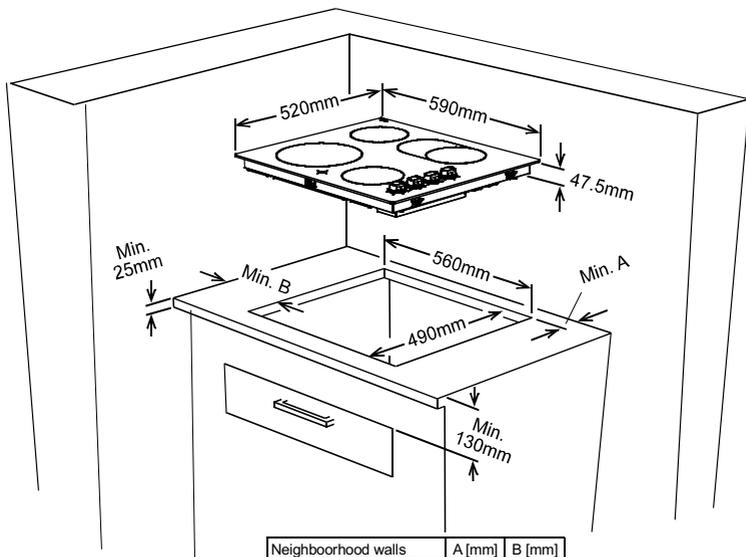

The electrical connection of this cooktop should be carried out by an authorised service personal or a qualified electrician, according to the instructions in this guide and in compliance with the current regulations.

- Before connecting your appliance to the mains at home, make sure to check the conformity of voltage settings, which are specified on the information sticker attached to the appliance and/or packaging, with the usage conditions available.
- The laws, ordinances, directives and standards in force in the country of use are to be followed (safety regulations, proper recycling in accordance with the regulations, etc.)

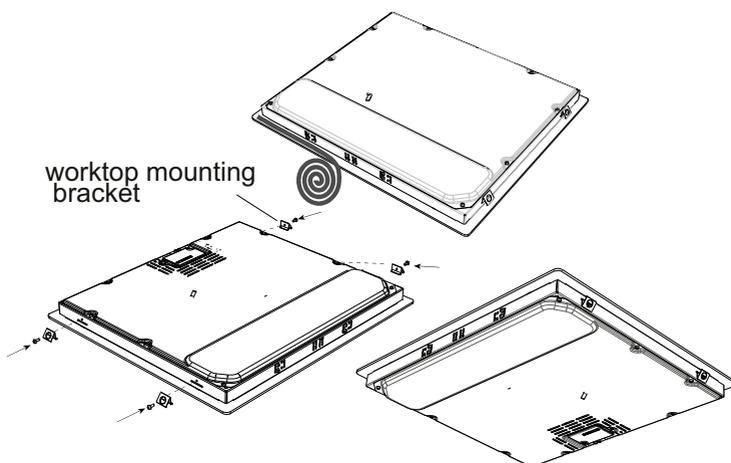

Locating your built-in hob

After removing the packaging material from the appliance and its accessories, ensure that the cooktop is not damaged. If you suspect any damage, do not use the appliance and contact an authorised service personal or a qualified electrician immediately.

- This built-in hob is to be inserted into a cut out of a worktop.
- Create an opening with the dimensions shown in next picture. The distance between the rear edge of the cooktop and any adjacent wall is depend on wall surface. please don't use easily combustible material like curtain, paper at nearby cooktop.

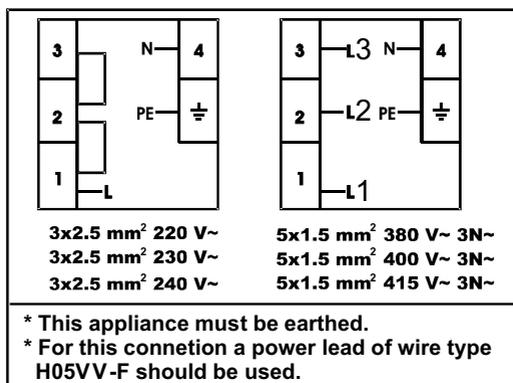

- Apply the one-sided self-adhesive sealing tape supplied all the way round the lower edge of the cooking surface along the outer edge of the glass ceramic panel. Do not stretch it.
- Screw the 4 worktop mounting brackets on the side walls of product.

4-) ELECTRICAL CONNECTION OF YOUR COOKTOP

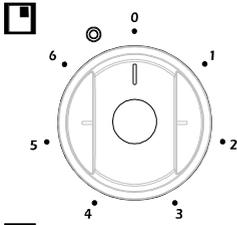

- Before proceeding with the electrical connection, verify that the current carrying capacity of the system and the socket is adequate for the maximum power rating of the hob.
- Electrical installation of the residence and the electrical current plug in use must be earthed and conform with safety regulations.
- If there is no dedicated cooktop circuit and fused switch, they must be installed by a qualified electrician before the cooktop is connected.
 - Fused switch must be easily accessible once the cooktop has been installed.
- Do not use adaptors, multiple sockets and/or extension leads.
- This appliance conforms with the requirements of the following EEC Directives:
 1. Vitroceramic hob EEC/73/23 and 93/68, EEC/89/336 relating to radio interference,
 2. EEC/89/109 relating to contact with foods.
- A circuit breaker with a contact opening of at least 3mm, rated 20A and delayed functioning type must be installed inside the supply circuit.
- For the vitroceramic cooktop, the cable must be H05VV-F 5X1,5mm² for 3 phase or 3X2,5mm² for single phase / 60227 IEC 53. You will find the connection diagram shown on the bottom of your appliance.

-
- During installation, please insure that isolated cables are used. An incorrect connection might damage your appliance. The warranty will not cover such damages.
 - All repairs must be carried out by an authorised service personal or a qualified electrician.
 - Unplug your appliance before each maintenance. For reconnection, follow the connection diagrams strictly.
 - The cooktop is not supplied with a supply cord.

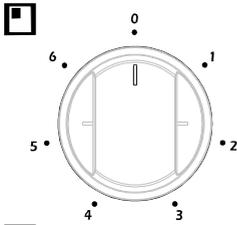

5-) USAGE

The appliance is operated by using knob control and the heat stored is confirmed by residual heat indicator lamp on the vitroceramic surface.

Knob controlled cooker is designed for operating at 9 heat levels:

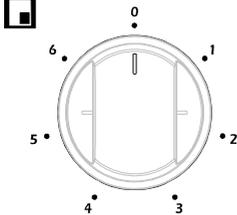

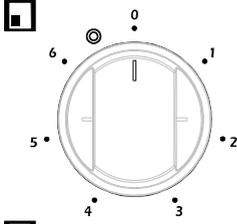

- 1-2 Keeping warm position
- 3-4 Heating position at low heat
- 5-6-7-8-9 Cooking roasting and boiling position

To deactivate the outer zone of a dual/oval heater, turn the knob to 'Off' position once. In this way, both outer zones switches off.

Residual Heat Functions

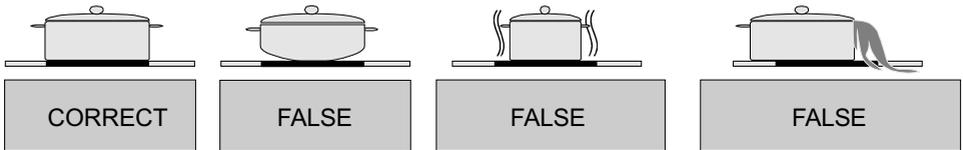

After all cooking processes there is some heat stored in the vitroceramic glass called residual heat. The control can calculate roughly how hot the glass is in the worst case. If the calculated temperature is higher than $+ 60^{\circ} \text{C}$, then this will be indicated in the related residual heat indicator lamp. The residual heat display is shown as long as the calculated heater temperature is $> + 60^{\circ} \text{C}$.

6-) CLEANING AND CARE

Cookware with rough bottoms should not be used since these can scratch the glass ceramic surface. The bottom of the cookware should be as thick and flat as possible. Before use, make sure that cookware bottoms are clean and dry.

Always place the cookware on the cooking zone before it is switched on. If possible, always place the lids on the cookware. Bottom of cookware must not be smaller or larger than the cooking zones, they should be at the proper size as indicated below, not to waste energy.

Before cleaning the cooktop, first remove the plug from the electrical supply socket. Then ensure that there is no residual heat stored in the appliance. Vitroceramic glass is very resistant to high temperature and overheating. If there is residual heat stored in the appliance, the related residual heat indicator lamp is on. In order to avoid burns, let the appliance cool down.

Remove all split food and fat with a window scrape. Then wipe the cooktop with a suitable washing up liquid and a clean damp cloth. Rub the appliance using a clean dry cloth.

If aluminium foil or plastic items have accidentally melted on the cooktop surface, they should be immediately removed from the hot cooking area with a scraper. This will avoid any possible damage to the surface. This also applies to sugar or food containing sugar that may have spilled on the cooktop.

In the event of other food that may have melted on the cooktop surface, remove the dirt when the appliance has cooled down. Use cleaner for glass ceramic or stainless steel when cleaning the surface.

Do not use a dishcloth or abrasive sponge to clean the vitroceramic surface. These materials may damage the surface. Do not use chemical detergents, sprays or spot removers on the vitroceramic surface. These materials may cause fire or vitroceramic color fade. Clean with water and washing up liquid.

AUSTRALIAN & NEW ZEALAND PRODUCT WARRANTY STATEMENT OF STANDARD WARRANTY CONDITIONS

AUSTRALIAN CUSTOMERS

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

NEW ZEALAND CUSTOMERS

Nothing herein contained shall be construed in any way as excluding or limiting your rights under the Consumer Guarantee Act 1993.

OUR WARRANTY

This product is also covered by the manufacturer's warranty set out in this document (**Our Warranty**).

Our Warranty is for a period of **twenty four (24) months** from the date of purchase and for dishwasher & refrigeration appliances will have an additional **thirty six (36) months** after the first **twenty four (24) months** on the wash motor for dishwashers & on the Sealed System (**PARTS only** Compressor & condenser etc) for refrigeration appliances. The labour cost to replace these parts is the responsibility of the customer.

This is in addition to (and does not exclude, restrict or modify) any rights or remedies to which you may already be entitled under the Australian consumer Law or the New Zealand Consumer Guarantee Act 1993 relating to this product.

Our Warranty (which is subject to the conditions below) covers rectification free of charge of any fault arising from defective materials or components, or faulty workmanship. The product will be repaired or replaced at the option of Blanco, and all costs of installation, removal, cartage, freight travelling expenses and insurance are to be paid by the customer.

Our Warranty is subject to the following conditions:

1. That the purchaser contact Blanco prior to any product repair.
2. That the purchaser carefully follows all instructions provided with the product and complies with all relevant electrical & plumbing regulations in their State when installing the product.
3. That the purchaser carefully follows the instructions provided in the owner's handbook relating to the proper use and care of the product and does not use the product for any purpose other than the DOMESTIC use for which it has been designed. If the appliance is used in commercial applications or for rental purposes, **Our Warranty** is limited to a warranty of **Twelve (12) months** covering all parts with **Three (3) months** on any labour cost of service or repair.

SERVICE AREA

The provision of service under **Our Warranty** is limited by the boundary / territory area of the nearest service centre. Travelling cost incurred for service outside this area is not covered by Our Warranty and service will incur commercial cost to be paid by the customer regulated by the number of kilometres travelled beyond the service area. These costs will be disclosed to you for acceptance by you prior to your claim being processed.

Microwave ovens must be returned to your nearest Authorised Service Centre for repair as they are a carry in serviceable appliance.

WHAT IS COVERED: By Our Warranty

During the warranty period, Blanco or its authorised Service Centre will at no extra charge, if your appliance is readily accessible without the need of special equipment and subject to the terms and conditions of this warranty, repair or replace any parts which it considers defective.

WHAT IS NOT COVERED: By Our Warranty

1. Products installed damaged or incomplete or not in compliance with the relevant electrical & plumbing regulations in their State.
2. Normal wear and tear e.g. cleaning, light globes, filters etc.
3. Failure resulting from power surges and electrical storms.
4. Insect or vermin infestation.
5. Unauthorised repairs or use of non genuine Blanco parts.
6. Any failure caused by the product not being used in accordance with the instruction and the installation manual provided with the product.
7. Misuse or abuse, including failure to properly maintain or service.
8. The clearing of blockages in pumps and hoses.
9. Damage which occurs during delivery or installation.
10. Claims to product surface coating due to liquid or solid spill-overs, accidental damage or damage caused from cleaning products not recommended by Blanco.
