# Shutter systems explained

Our standard range is hand picked to include our most popular options and sizes, taking the guesswork out of your roller shutter selection.

## Sizes up to 7m<sup>2</sup>

- Max width 3m

## Foam Filled Aluminium Blades

- Powder coated for durability

## 3 Control System Options

All remote control operated:

### 1. Battery

- DIY install
- Works during a blackout

### 2. Solar

- Easiest DIY install
- Works during a blackout
- One hour of direct sunlight equals one week of normal operation

### 3. Hardwired

- Electrician required for installation
- Fully integrates into house circuitry for premium finish
- Smart home compatible

## Why buy a roller shutter?

### Privacy

Complete window block-out keeps out prying eyes and excess noise whilst deterring vandals and thieves.

### Climate control

Stops the sun from heating up your home in summer and keeps heat from escaping in winter.

### Energy Savings

Better control over your homes' climate means you need less energy to keep it comfortable, providing up to 40% energy savings.

### Light control

Put a dimmer on the sun. From full natural light to complete darkness, you are in control.

### Fire Protection

Our fire rated system helps protect your home against ember attack and radiant heat in the event of a fire.

### Cyclone Protection

Our cyclone rated system helps protect your windows and doors from debris and the extreme pressure changes of a storm.

MONTHS WARRANTY

## ALL SYSTEMS ARE REMOTE CONTROLLED

Multi-channel remotes allow for easy grouping of shutters

One touch programming

Group shutters on channels

*Example:*

Channel 1 - all shutters

Channel 2 - front of house

Channel 3 - master bedroom

## DIY Installation

Roller shutters have a medium to high level of difficulty for installation. It's recommended for experienced DIY enthusiasts or trades people.

Hardwired systems need to be installed by a qualified electrician or roller shutter installer in your area.

For full installation instructions download the "Roller Shutter Tech Manual" downloadable on at [everton.com.au](http://everton.com.au)

# Completing the order form

### 1. Room Location

Choose a name or description for each roller shutter to plan your order. This description will appear as a sticker on the wrapping of your roller shutter when it arrives to help identify where it will be installed e.g. master bedroom, kitchen, bedroom 1, bedroom 2.

### 2. Install Type

There are 2 methods of installation. On-Wall or In-Reveal.

We recommend On-Wall - it's easier to fit for DIY and you don't lose any viewing area through the window.

You will only need to use in-reveal fitting if any of the following apply:

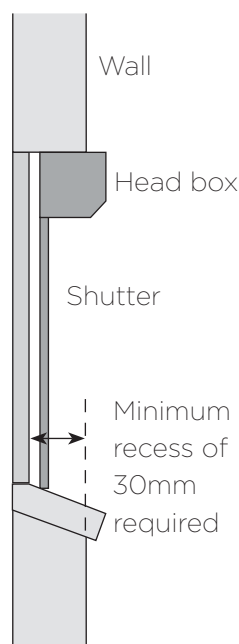

there is less than 300mm of clear space above the window to allow space for headbox; or there is less than 150mm of clear space on either side of the window to allow space for shutter guides.

### 3. Packing extrusion or bottom guides?

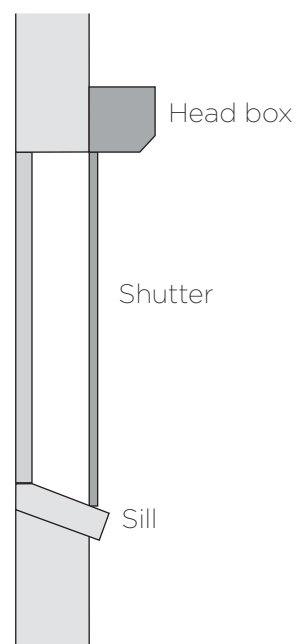

Packing extrusion is used when there is something blocking the path of the shutter, e.g. a door handle. The profile packs the shutter out from the wall to avoid any obstacles.

Bottom guides may be required if the opening has no sill. If either of these are required, simply write *packing req* or *bottom guide req* in the notes column.

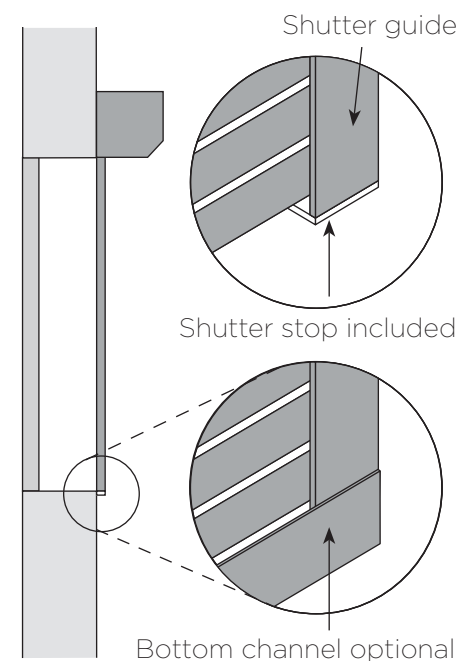

In-reveal side view with sill

On-wall side view with sill

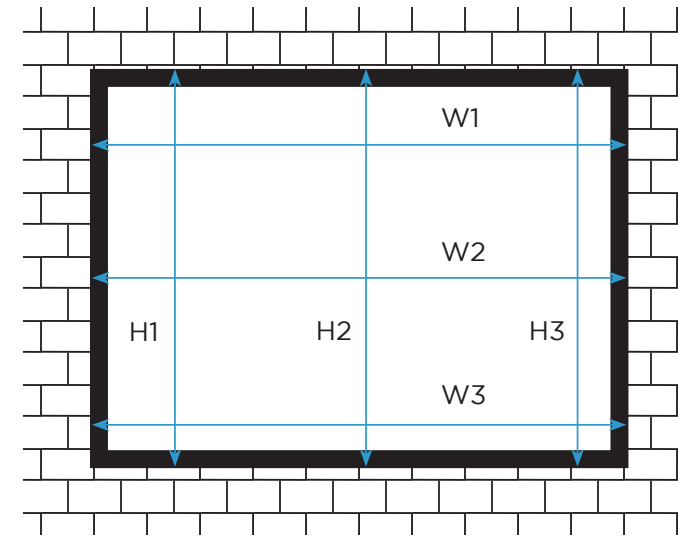

On-wall side view with no sill

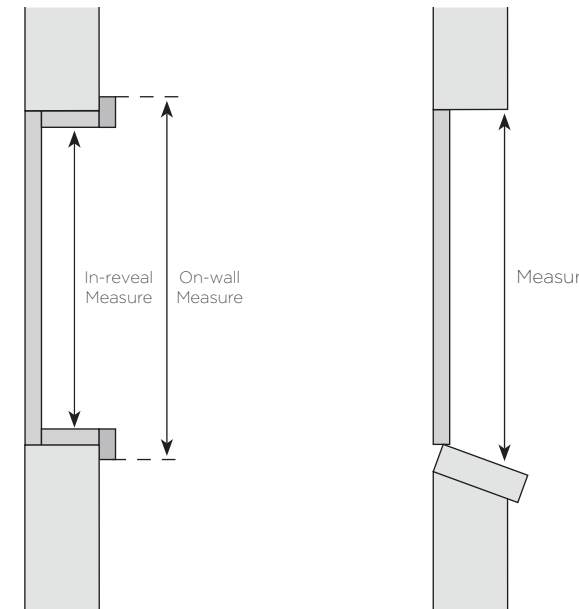

### 4. Height and Width

- Measure each side and the middle of the window opening to the outside of the frame.
- Include architrave for on-wall installation.
- Do not include architrave for in-reveal installation.

Window with architrave

Window with sill

### 5. Control System

Select either a battery, solar or hardwired control system for this shutter. You only need one remote. You can purchase one for each room if desired. Manual control can also be selected as an option by leaving this section blank and writing *manual* in the notes section.

### 6. Control Side

Select if the control will appear on the left or right of the window when viewed from the inside.

### 7. Colour

Select the colour for your roller shutter.

Colours shown here have been reproduced to represent actual product colours as accurately as possible. If unsure, we recommend checking your chosen colour against an actual sample of the product before purchasing as varying light conditions and limitations of the printing process may affect colour tones.

### 8. Control System Remote Controllers

Indicate the number of remotes required for the different control systems. At least one remote is required, but you can get more.

If you are ordering a battery system, indicate the number of wall chargers you would like to purchase. At least one will be required to charge your battery system.

### 9. Assess your job

Will you require specialised shutters *i.e. fire or cyclone rated?*

Check with your local council about requirements in your area.

If required write it in the notes column *fire rated* or *cyclone rated* followed by the rating required e.g. *fire rated BAL 40* or *cyclone rated C3*.

### 10. Extras

Include any additional explanatory notes or special requirements e.g. -

- Fire or cyclone rating
- Packing extrusion
- Bottom guides
- Matching headbox sizes

Once you've filled out the form, return it to your local Bunnings' Special Orders Desk.

# How It works

---

It's as simple as 1,2,3! Follow the steps shown to purchase or order your product. If you need further advice, speak to a Team member at the Special Orders Desk in-store.

---

## 1. Select The Product You Want

View the extensive range available in this brochure or online to select the item that best suits your needs.

---

## 2. Order At The Special Orders Desk

After you have selected the product you want, take this brochure to the Special Orders Desk.

---

## 3. Get It Home

### We Will Deliver

Delivery to your home or site can be arranged in-store when purchasing your products.

### Pick-Up In-Store

If you decide to pick-up in-store and need help to get it home, you can:

- borrow a courtesy trailer
- hire a vehicle

Check with your local Bunnings store for availability.

---
