Simple to assemble and easy to install, our DIY wardrobe program includes a standalone sliding wardrobe as well as a range of Hinged Walk-In and Built-In units.

HOME SOLUTIONS EXPLAINED

Home Solutions is based on a versatile wall-mounted strip system that can be completely customised to suit your current requirements, as well as being easily adapted when requirements change.

Home Solutions also includes the Baskets & Frames range that can be used together or separately.

flexi TIP

Hang Tracks allow for fixings to be mounted to a stud frame allowing the system to be load bearing.

01 HANG TRACKS

Hang Tracks are the starting foundation of the Home Solutions range. Hang Tracks are designed for Double Slot Wall Strips to mount into. Once you set your Hang Tracks level, simply screw into place and begin hanging the strips. Hang Tracks come in lengths of 667mm to 1800mm and are available in White and Black.

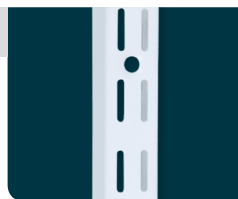

02 HANG TRACK COVERS

Use Hang Track Covers as a spacer to set Wall Strips apart. This will ensure the Wall Strips are the correct distance apart for accessories to be added.

03 WALL STRIPS

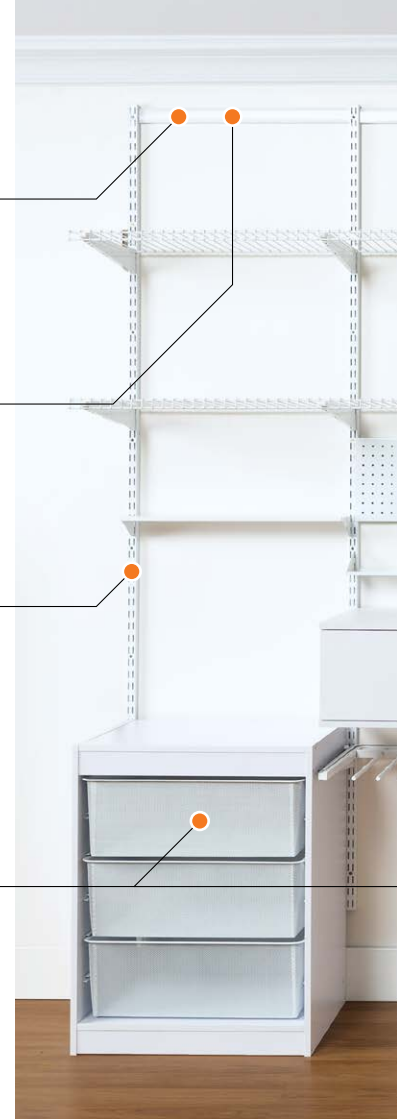

Double Slot Wall Strips clip into the Hang Tracks and come in lengths of 300mm to 2133mm. Made of durable powder coated steel, Double Wall Strips are designed for Double Brackets to slot into. You can use Wall Strip Joiners to extend the length of the strips. Available in White and Black.

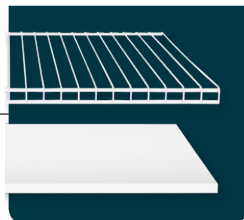

04 DRAWERS & BASKETS

The Wire Baskets & Frame range can be combined in many different ways and can easily be adapted to individual needs and space requirements.

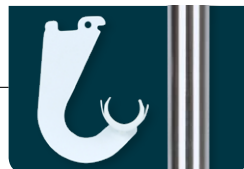

Wire Baskets & Frames and Drawer Units are designed to be a free-standing system that can also be combined with Wall Strips & Brackets. Being free-standing, it is the perfect option for rental homes or people wanting a flexible, less permanent solution.

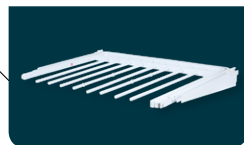

05 SHELVING

Wire Shelves can be hung using our Wire Shelf Brackets in any room. Made from strong, bonded steel, they are chip resistant and allow excellent air circulation. For a more solid look and feel, our Timber Shelving is the perfect choice and is available in a variety of depths. Perfect for bedrooms, laundries, pantries or even garages.

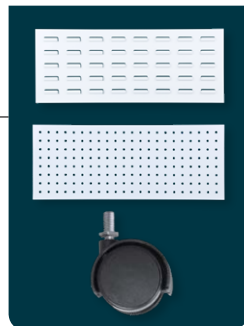

06 HANGING RODS

Hanging Rods come in 24mm diameter and are made from quality stainless steel. Hanging Rods are available in either solid or telescopic versions ranging from 660mm to 2400mm in length.

07 SLIDING PANTS RACK

The Sliding Pants Rack has been engineered to fit up to 8 pairs of pants. The unique sliding rail mechanism allows you to completely slide out the rack for easy access.

08 ACCESSORIES

We have a wide variety of accessories available, from Peg Boards and Tote Boards to Shoe Racks and Drawer Units. With our Home Solutions system, the possibilities are truly endless.

DIY

STEP-BY-STEP INSTALLATION GUIDE

Home Solutions can be installed into Masonry, Plasterboard or Wall Studs. Please use the required wall plugs and mounting systems applicable to each of them.

01 MEASURE AND PLAN

Measure and plan your system first. Using your planning sheet (page 51) ensure your measurements are correct.

02 INSTALL YOUR HANGTRACK

Installing your Hang Track is easy. Just ensure that it is level (using a spirit level!) before screwing in. This step is critical as the whole Home Solutions system requires a level foundation! Don't worry about the exposed Hang Track, as we have Hang Track Covers to conceal the track.

03 INSTALLING THE WALL STRIPS

To install the Wall Strips, simply hang them from the Hang Track, working from one end first. Before fixing your first Wall Strip ensure it is vertical using a spirit level. Once fixed to the wall, install the other Wall Strips by using the Hang Track Cover as a spacer. This sets each Wall Strip 558mm apart allowing all Home Solutions accessories to be used.

04 WALL STRIP JOINERS

If you want to extend the length of your wall strips simply use our Wall Strip Joiners. These enable you to attach another wall strip simply and easily. Wall Strip Joiners are ideal if you want to maximise the vertical space you have. Don't worry, you can install Wall Strip Joiners at any stage should you require them in the future!

WHAT YOU WILL NEED:

Tape Measure, Pencil, Spirit Level, Cordless Drill with a No. 2 Phillips® Head Bit and/or Phillips® Head Screwdriver, and Step Ladder.

05 INSTALLING YOUR BRACKETS

Our Wall Strip Brackets simply click securely into our Wall Strips. To add a Hanging Rod, simply clip in our Hanging Rod Bracket to the required depth, then click in our Hanging Rod.

06 INSTALLING WIRE SHELVES

Our Wire Shelves come in a variety of widths and are perfect for use in wardrobes and laundries as the ventilated structure allows for greater air circulation. To install, simply clip them into the bracket (nose first) then lock into place. For a truly clean appearance we recommend adding our Nose End Covers.

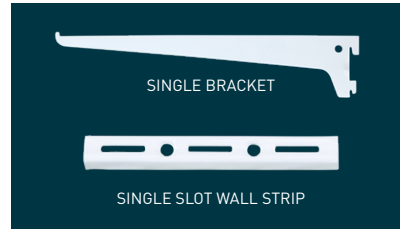

07 ACCESSORISE

With your layout established, you can now accessorise your Home Solutions system to suit your specific needs. Choose from Sliding Baskets, Pants Racks, Single Drawers, Shoe Racks and much more.

08 ENJOY

Your Home Solutions set-up is now complete! Don't worry, if you change your mind you can always refresh your system at any time!

SINGLE SLOT WALL STRIPS

The Single Slot Wall Strip and Single Bracket system is our most economical wall-mounted storage system.

Single Slot Wall Strips come in lengths of 145mm to 2500mm and are available in Black or White.

Single Brackets clip into our Single Slot Wall Strips and are designed to be used with our Timber Boards (or your own timber boards). Single Brackets come in depths from 150mm to 600mm, and are available in White or Black.

TIMBER SHELVES

Timber Shelves are great for storage or decoration. They are ultra-strong with a hard wearing Timber finish making it very easy to clean. Perfect for use within the Home Solutions system.

Timber Shelves are 16mm in thickness and come in widths of 600mm, 900mm and 1200mm.

Timber shelves can be used with both our Single Slot and Double Slot systems. For added security when mounting to our Single Slot Brackets, we suggest using our Mono Board Clips or Duo Board Clips. Or, when mounting to our Double Slot Brackets, we recommend using our Board Fix Screws to fasten the bracket to the board.

WIRE SHELVES

Wire Shelves can be installed with our Wire Shelf Brackets in any room or space including the bedroom, laundry, pantry and garage. Made from strong bonded steel, they are chip resistant and provide excellent air circulation. Wire Shelves can be combined with our Shoe Shelf Brackets to create angled shelves perfect for storing shoes.

Wire Shelves are 335mm deep (or 350mm for a B shelf). If required, they are designed to be overlapped to ensure any width is spanned. They come in lengths of 667mm, 1225mm and 1840mm. Available in White only.

WIRE SHELF BRACKETS

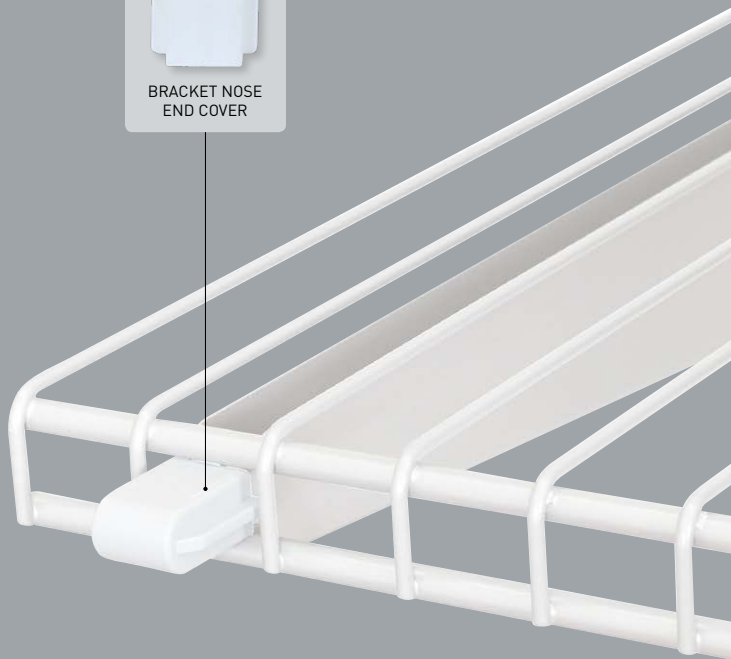

The Wire Shelf Brackets are designed to be used with Wire Shelves. Each bracket features a unique locking mechanism to help secure the Wire Shelf into place. These brackets come in 350mm lengths to suit the Wire Shelves. Available in White only.

NOSE END COVERS

Our Nose End Covers simply slip over the end of the Wire Shelf Brackets for a neat and tidy appearance. For those installing Wire Shelves to their Home Solutions system, the Nose End Covers add extra security to the wire shelf brackets. Available in White only.

SHOE BRACKET

The versatile Shoe Bracket has been engineered to transform any Wire Shelf into a fantastic shoe shelf. The bracket features the same locking mechanism as the Wire Shelf Bracket, but holds the shelf at an angle making it easy to access your shoes. These brackets come with a clip to fasten the Wire Shelves to the bracket and come in 350mm lengths to suit the Wire Shelves. Available in White only.

RUNNER FRAMES

Runner Frames and accessories may be combined in many different ways and can be easily adapted to suit your space and needs. You're also able to stack Runner Frames together to create a tower height of your choice.

The Wire & Mesh Baskets glide smoothly in the Runner Frames and have a stopper to ensure they cannot fall out of the other side of the Runner Frame.

With accessories such as Castors, Tower Shelves and Rod J Hooks, the possibilities are truly endless!

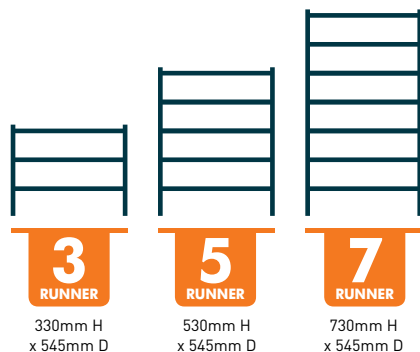

Runner Frames can be used anywhere in your home, office or garage. Available in White only.

CROSS BARS & CONNECTORS

Cross Bars and Connectors are used to connect your Runner Frames together, but also determine the width of Basket you use. The Cross Bars come in widths of 230mm and 435mm to suit your requirements. The Cross Bars come with Connectors attached, in both 'L' and 'T' shapes. To continue adding Runner Frames on top of each other, the 'T' Connector and Cross Bars are used.

The 'L' Connectors have threads on them to allow Castors to be added.

Cross Bars come in White only.

VACUUM BAGS

Triple your storage space with our range of reusable Vacuum Bags.

Each bag has a zip slider to create an airtight seal that helps protect against insects, dirt, dust, mildew and odours.

With any vacuum cleaner you can compress, store and organise your doonas, blankets, pillows, cushions, clothing and other bulky items, and the clear bag makes content identification easy.

VACUUM BAGS	DESCRIPTION	ITEM NO	BARCODE	QTY

	STORAGE BAG 1PK JUMBO 125 X 88CM	04470473	9341136015713	

Vacuum Bags are great for moving house, travel and for storage of your belongings.

HOW TO USE

01 PACK

Place all articles into vacuum bag. Ensure you leave approximately 8cm of free space from the seal.

02 SEAL

Attach bag clip (included in box) and close the vacuum bag by sliding the clip firmly along the seal. Once bag is sealed, remove clip and store.

03 VACUUM

Unscrew the valve cap. Press vacuum hose end against valve and vacuum out all air. Once air is removed, screw down the valve cap quickly so no air can re-enter the bag.

04 STORE

Store in cupboards, on shelves, under beds or anywhere you wish to store your items.

SHOE RACKS AND STANDS

The Home Solutions Shoe Racks and Stands range is ideal to add utility to an otherwise wasted space.

Available in an extendable or stackable design and in depths of 215mm and 225mm, the Shoe Rack range is perfect for your hallway, laundry, bedroom, garage and mudroom for storage of up to 15 pairs of shoes - the frames are lightweight and can be easy moved as your needs change!
