OOZEY GLOOEY GLOW IN THE DARK POT

WITH DARLING DEERE

@darling_deere https://www.instagram.com/darling_deere/

@darlingdeere <https://www.facebook.com/darlingdeere>

ITEMS NEEDED:

- Glue gun and glue
- Terracotta Pot
- Glow in the dark paint and paint brush
- Decorative Glass

INSTRUCTIONS:

1. Set up your craft station with newspaper to protect surfaces and put on your paint clothes or wear an apron. Read the instructions on the Glow in the Dark Paint can for drying times.
2. Paint your terracotta pot with Glow in the Dark Paint, have a container of water handy to wash out your brush. Four coats of paint will give you a great glow!
3. Pre-heat your glue gun making sure it is on a gentle setting- NOTE: The tip of this is very hot, make sure an adult is present to help with this part.
4. Use the Bat or Moon template (on the following page) and lightly trace the shape onto your pot.
5. Once the glue gun is ready, glue the outline of your Bat or Moon. At this step, you may want to put your glue gun on a higher setting to get an even oozy effect.
6. Select your decorative glass pieces and glue onto the pot, if you do this in small sections, the glue will stay sticky. Choose shapes that will fit into your Bat or Moon design.
7. The most important part is to charge your pot in the sun and get ready for its spooky glow that appears at night.
8. Use as a normal plant pot or an alternative bowl for your Halloween treats.

GRAVEYARD GUACAMOLE

**HALLOWEEN RECIPE
BY MEL ALAFACI**

Guacamole is a healthy, nutritious and delicious dip. It can be enjoyed on it's own, with salads, with main course dishes, and as a delightful dip with crackers or corn chips.

Here a quick and easy recipe to make your Halloween extra spooky!

INGREDIENTS:

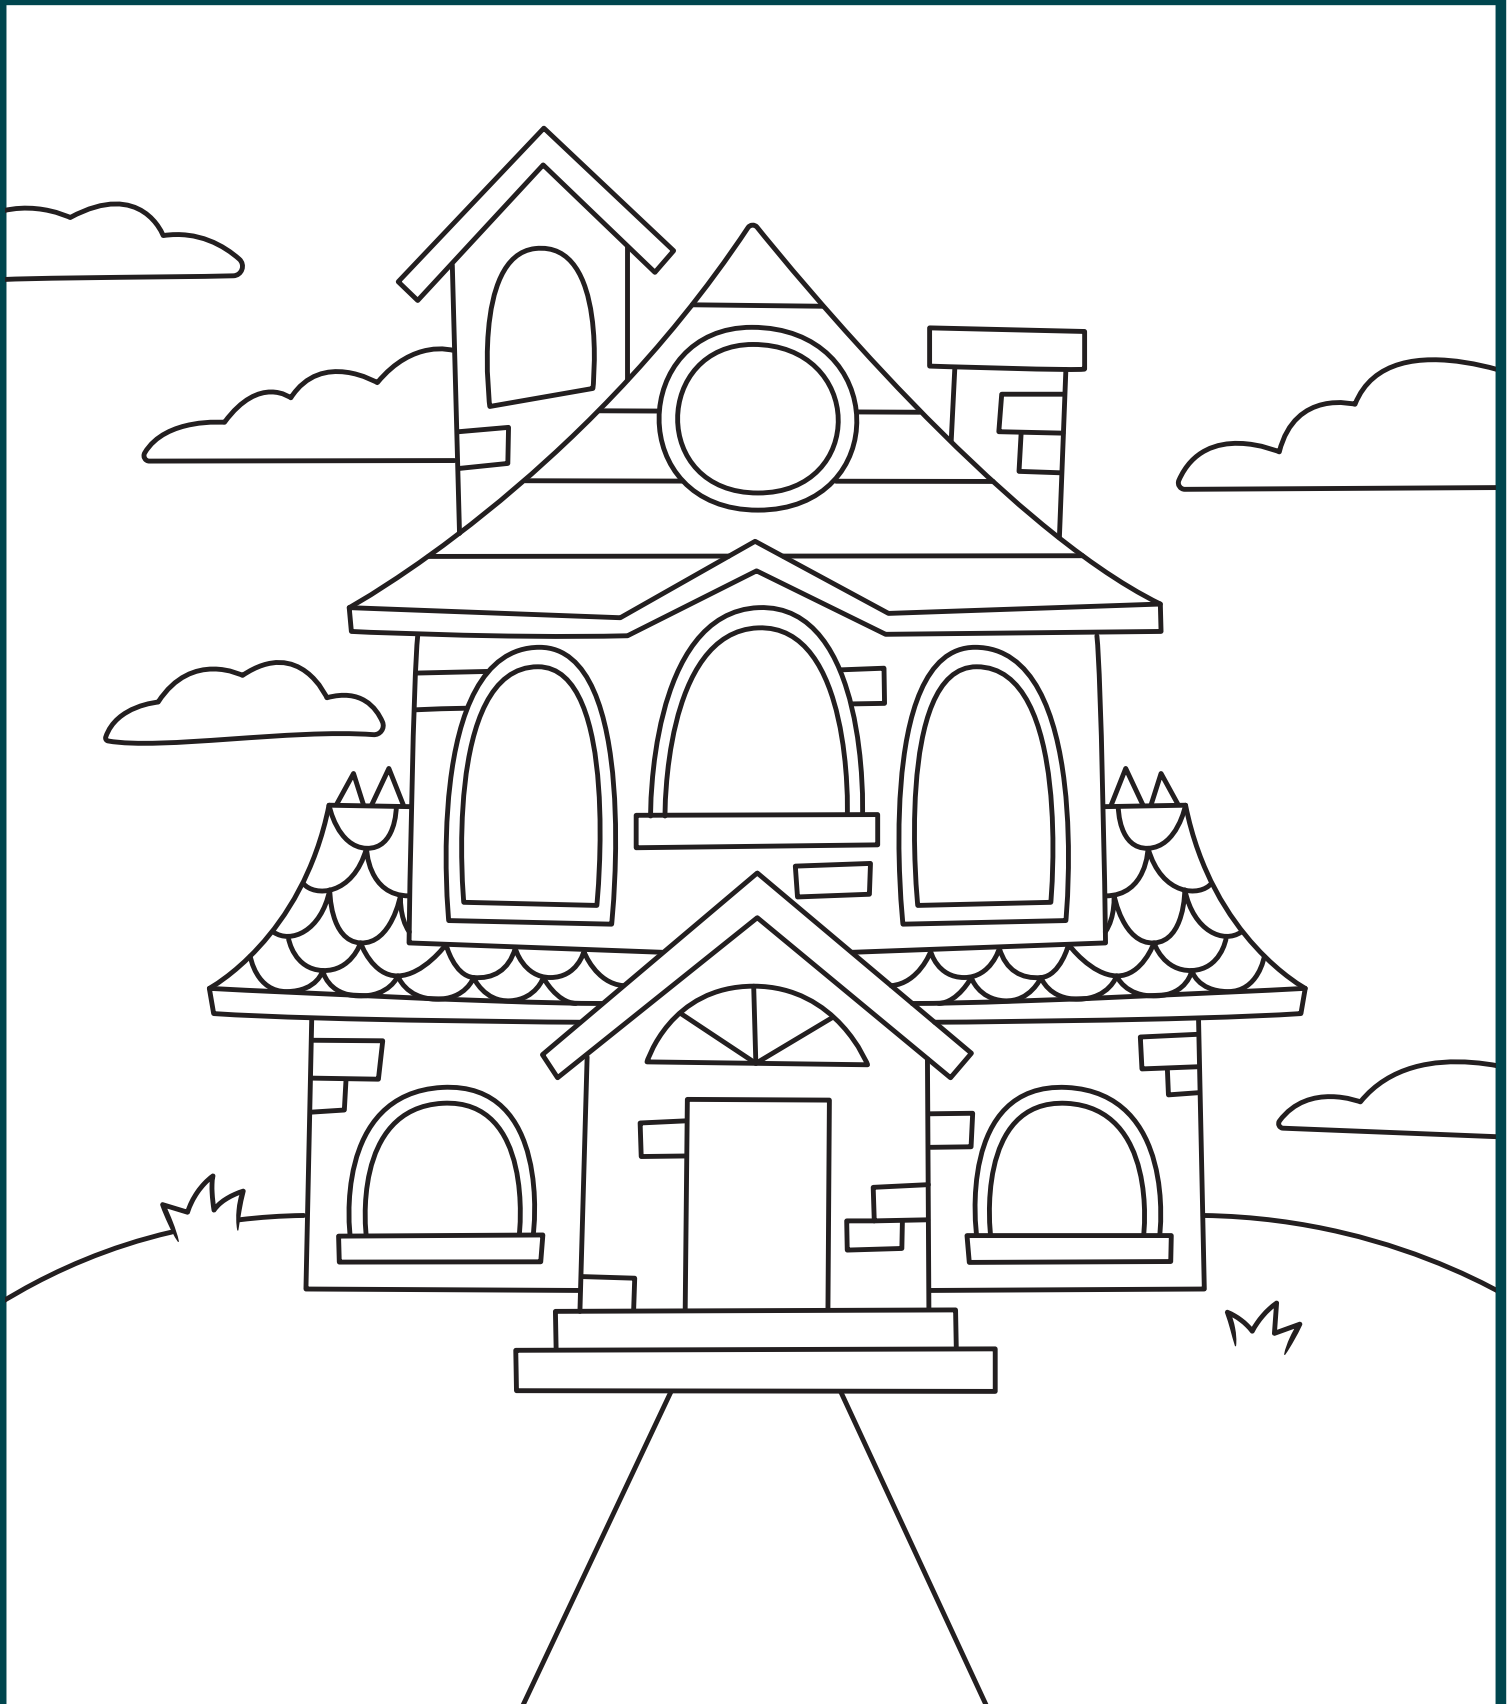

- 1/4 red onion very finely chopped (optional)
- 1 tablespoon finely chopped coriander (optional)
- 1 tomato finely chopped
- juice and zest of one lime
- 2-3 ripe avocados mashed with a fork
- salt and pepper to taste
- 1 small red capsicum or 2 small chillies chopped (optional)

METHOD:

1. Simply add the chopped and diced tomatoes, onions to the mashed avocados and stir through. Now add the remaining ingredients and seasoning and blend well.
2. I arranged my guacamole in a gorgeous terracotta saucer and planted some corn chips as tombstones. This was inspired from an amazing kids party a friend shared on social media. Enjoy!

SPOOKY 'OOZY' POTTED PIZZA'S

(MAKES APPROX. 4-6)

You will need 6 seasoned terracotta pots or use teacups or muffin trays too. To season a new pot, simply spray with cooking spray, or grease with vegetable oil and then bake the pot on its own with its coating of oil for about 8-10 minutes in a very hot oven of 220c. Spray or oil again and then bake for a second time to create a seasoned pot. Cool and then use. You only have to season your pots the first time, they can also be washed in the dishwasher!

PIZZA DOUGH:

- 160ml hand hot or warm water
- 1 heaped teaspoon instant yeast
- 1 teaspoon sugar
- 225g bakers/pizza flour
- ½ teaspoon salt
- 15ml olive oil

PIZZA FILLINGS:

- Grated mozzarella cheese or bocconcini balls
- Cooked bacon
- Cooked mushroom
- Crushed Garlic
- Sliced and diced pepperoni
- Pizza sauce
- Italian herbs
- Cooked sliced mushrooms, capsicum etc
- Additional flour for hands and bench to knead the dough.

METHOD:

Place all the pizza dough ingredients into a large bowl or stand mixer bowl. Bring wet and dry ingredients together either by using a strong spoon, or by using the dough hook in your stand mixer, to form a messy dough ball.

If you are kneading by hand, throw the dough onto a floured surface.

Knead for about 5-8 minutes by hand, until the dough is silky, stretchy and pliable. If you are doing this in the stand mixer, simply mix for 5 minutes on a low speed.

Once kneaded, place dough into a greased bowl, cover with a wet cloth and then allow to prove/double in size, for about 20-30 minutes. Results will vary depending on how warm it is in your kitchen!

Divide the dough into four or six even amounts, and then roll each piece into a round ball.

Roll out on a floured surface until about the size of a side plate.

Add some of the grated cheese, garlic, then top with a few of your favourite delicious cooked fillings.

Pull the ends up to securely encase the cheese and fillings.

Grease your terracotta pots very liberally with cooking spray or cooking oil. Dust to coat with flour, polenta or semolina.

You are now ready to 'pot' your spooky pizza pockets. Push into the pot securely and then top with a little extra cheese and even some herbs and garlic.

Allow to rise for 15 minutes and then bake for 15-20 minutes until a lovely brown crust has formed and the bread has a hollow sound when you tap the crust. Enjoy!
