Moving Tip!

Ensure that medications, personal hygiene and grooming products are packed into a separate box or backpack. Collect other necessities like phone chargers, basic food and beverage items, and pet supplies, and pack into another clearly labelled box. Finally, things like remote controls, batteries, and bed and couch legs should also have their own carton put aside. Consider taking these with you rather than leaving in charge of a removalist. You'd hate for these essentials to go missing.

Mattress Protectors

Perfect for use during moving, storage or renovation.

- Easy to slide over mattresses
- Protects mattresses from dust, dirt, moisture and damage during transit
- Reusable

Single Mattress

2250 x 1200 x 250mm

FINELINE: 02610088

Queen Mattress

2500 x 1600 x 300mm

FINELINE: 02610091

King Mattress

2550 x 1850 x 350mm

FINELINE: 02610092

TIP

Moving Tip!

When packing your mattress into the moving container (or truck), ensure it is standing on its side vertically, not lying down horizontally. If you are transporting several mattresses then stack them side by side. The space in between each mattress is a great place to pack items such as flat screen TV's, large items or framed artwork.
