Bloom Boost

MANUTEC Bloom Boost is rich in POTASSIUM and enhances size, colour and quality of Flowers & Fruits. Potassium also helps to increase plant's resistance to pests & diseases.

DIRECTIONS:

Method: By Watering Can or Foliar Spray

Dilution rate: Dissolve at the rate of 5–10 grams (1–2 full measures of enclosed green spoon) per each 5 litres of water.

Coverage: 5 litres cover 2 square metre of soil area. For Pots, apply 1 litre per 15cm Pots and 2-3 litres for 30cm Pots.

Foliar Spray: Use same dilution rates as above. Avoid spraying during hot, windy & rainy conditions.

Frequency: For best results repeat the application every 2 weeks.

NITROGEN(% W/W)				PHOSPHORUS (P)	POTASSIUM (K)
Nitrate-N	Amm-N	Urea-N	TOTAL-N	TOTAL(% W/W)	TOTAL(% W/W)
3.0	0.2	9.3	12.5	2.5	28.0

TRACE ELEMENTS (% W/W)								Added Vitamin B1 and Amino acid to enhance nutrient uptake
