Registration and Login By App

TTLock users can use their phone number and email to register their account. Currently, TTLock App has supported the phone number registration in 159 countries and regions. When users are registering their account, the verification code will be sent to the mobile phone or the email address. After the verification is passed, the registration is successful, and then the page will jump directly to the home page.

Add Lock By App

Enter a Name

Operation Successfully Input lock name

Send Key By App

After adding the lock successfully, the user has the highest authority of the lock, which is the administrator of the lock. The user can send the bluetooth key to others with setting the time limit, and has the right to select the limited time, permanent or one-time Bluetooth key. The key is sent to recipient's mobile phone or email and the recipient will get the key and authority of the lock in the TTLock App.

Administrators can manage all the keys they send out, including clearing keys, resetting keys, sending keys, adjusting the time limit of the keys, and viewing the access records.
